

2022 National Farm Safety and Health Week US Ag Centers Promotional Toolkit

September 18-24, 2022

#USAgCenters #NFSHW22 #NECASAG

The [U.S. Agricultural Centers](#) are promoting the 2022 National Farm Safety and Health Week through social media. This social media kit has been developed to promote U.S. Ag Center safety resources that fit with the daily themes of National Farm Safety and Health Week.

Table of Contents

NFSHW Goals and Daily Themes	3
NFSHW Logos and Social Media	4
Engage with Media	4
Posting on Social Platforms	6
Hashtags	8
Imagery	9
AgriSafe Webinars	10
NFSHW Teaser Examples (9/12-9/16)	11
NFSHW Official Social Media Post Samples	12
Monday (9/19)	12
Tuesday (9/20)	14
Wednesday (9/21)	16
Thursday (9/22)	18
Friday (9/23)	20
U.S. Ag Centers	22
Additional Farm Safety Partners	24

#NFSHW22 Social Media Toolkit

#USAgCenters | #NFSHW22 | #NECASAG

[National Farm Safety and Health Week: Protecting Agriculture's Future](#)

This National Farm Safety and Health Week (NFSHW) social media toolkit serves the following goals:

1. Create a cohesive, clear, understandable message promoting a wide range of farm safety and health topics.
2. Increase engagement on farm safety and health social media platforms.
3. Disseminate resources about farm safety and health.

Monday (9/19)	Tuesday (9/20)	Wednesday (9/21)	Thursday (9/22)	Friday (9/23)
Tractor Safety & Rural Roadway Safety	Overall Farmer Health	Safety & Health for Youth in Agriculture	Confined Spaces	Safety & Health for Women in Agriculture

#NFSHW22 Social Media Toolkit

#USAgCenters | #NFSHW22 | #NECASAG

[National Farm Safety and Health Week: Protecting Agriculture's Future](#)

Step 1: NFSHW Logos and Social Media

- Download the **NFSHW logo** below for social media use:

[2022 NFSHW Logo \(PNG\)](#)

- Download one of the following **NFSHW logos graphics for Facebook** cover photo use:

[Option 1](#)

[Option 2](#)

[Option 3](#)

[Option 4](#)

- Update your website and Facebook cover photo** with the National Farm Safety and Health Week graphic.
- Share the [Facebook event](#).

Step 2: Engage with Media

Part 1:

- Create a **press release**
- Reach out to **local, state, and national media outlets** to share information about NFSHW.
 - o Visit the following to find media outlets in your area:

[Print](#)

[Radio](#)

[Television](#)

#NFSHW22 Social Media Toolkit

#USAgCenters | #NFSHW22 | #NECASAG

[National Farm Safety and Health Week: Protecting Agriculture's Future](#)

Part 2:

- Follow the **Media Guidelines for Agricultural Safety:**
 - [Downloadable PDF \(English\)](#)
 - [Downloadable PDF \(Spanish\)](#)
 - [Downloadable PDF \(French\)](#)
- Images:** Include images that follow all farm safety protocols. This extends to the full environment depicted in the image.
- Text:** Craft a message demonstrating that farm incidents are more common than expected yet also preventable and predictable. Use the message as a “teachable moment.” Include safety resources. Focus on the full impact of injuries and death, not just the grief caused by the incident. Follow all safety protocols, including those for youth.

Part 3:

- Remember that news moves fast - you will be in competition for limited space or airtime.
- Target **media outlets that have an interest in rural/agricultural issues** - know who you are going to connect with at the media outlet. Get a name!
- Get a **content expert** to speak on the topic of agricultural health and safety or one of the daily themes.
- Prepare to **suggest several story ideas** that will garner broad interest. The more sensational the story, the more likely it is to be covered by media outlets. Focus on personal stories. Not all pitches will be successful, but do not let that discourage you.
- Consider **writing a letter to the editor** for a local newspaper or trade publication.
- Also consider **reaching out to trade publications** for agricultural associations.

#NFSHW22 Social Media Toolkit

#USAgCenters | #NFSHW22 | #NECASAG

[National Farm Safety and Health Week: Protecting Agriculture's Future](#)

Part 4:

- If asked to do an interview, follow these tips:
 - Keep your answers **short and to the point**.
 - **Prepare** your answers ahead of time.
 - **Provide instructions** on how to access resources, like the Ag Centers' YouTube channel.
 - **Mention the name** of the campaign, the organizers, and the Ag Centers.

Step 3: Posting on Social Platforms

Part 1:

- Post on **social media**:

Follow the **Media Guidelines for Agricultural Safety**:

- ([Refer to Step 2, Part 2 as shown above.](#))

Refer to the [PDF of the full week's resources](#), organized by day.

Part 2:

- You can **edit the length and content of the post template** (see below) according to the platform.
- Suggestions for Individual Platforms**
 - Tweets tend to be short (≤ 280 characters) and do best when framed as part of a larger regional/national dialogue. They don't always include an image or link and often have 1-3 hashtags.
 - Facebook posts can be longer, should include only one general hashtag at most, and tend to do best with graphics that depict a story, such as infographics or pictures of individuals.

#NFSHW22 Social Media Toolkit

#USAgCenters | #NFSHW22 | #NECASAG

[National Farm Safety and Health Week: Protecting Agriculture's Future](#)

- Instagram posts are centered around an image, do not include external links, and can have many hashtags.
- LinkedIn posts are professional in nature, often sharing an organization's opportunities, events, or resources.
- You may also wish to play around with Facebook and Instagram stories. Kudos to anyone who creates a TikTok video.

[Find more information on ideal social media post lengths for platforms here.](#)

- Posts with images** tend to do best.

We have suggested image formats in brackets [] for some drafted posts. Please refer to the resource itself and the provided [Imagery resources](#) when selecting visualizations to accompany the drafted text

- Use **images that include a range of diverse identities.**
- If using free stock imagery websites like <https://unsplash.com> or <https://pixabay.com>, **cite the photographer.**
- If using a resource from another organization, make sure to **tag the organization** in the post.
- Consider **translating posts** into languages common to your region, including Spanish.
- Make sure your social media posts are **accessible for individuals with disabilities:**
 - [Accessible Social Media](#)
 - [6 Ways to Make Your Social Media Posts More Accessible](#)
- Reshare other US Ag Center social posts** and resources throughout the week

Monday (9/19)

Tractor Safety & Rural Roadway Safety

1. #Harvest22 is underway, which means farmers are busy, and so are the roads. Whether you're operating slow-moving/wide farm equipment, make #RoadwaySafety a priority. Remember to stay informed, aware, and patient with this PSA from @UMASHcenter

#NFSHW22 #USAgCenters #necasag #RoadwaySafety #ShareTheRoad

[VIDEO] <https://bit.ly/3oZtqAm>

@UMASHcenter

@umashcenter

@umashcenter

2. "Being seen is being safe." Increasing visibility with good lighting and marking on farm equipment is a practical way for drivers of farm equipment to protect themselves and others from the risk of roadway incidents and crashes.

[POSTER] SWAG: <https://bit.ly/3A8MD8Y>; GPCAH: <https://bit.ly/3Qt32dP>

#USAgCenters | #NFSHW22 | #NECASAG

[National Farm Safety and Health Week: Protecting Agriculture's Future](#)

4. Tractors are nearly universal on the farm. While an essential piece of equipment, tractors are also a leading cause of death for farmers and farmworkers. Practice safety when operating tractors with tips from the Northeast Center. Available in Spanish and English.

#NFSHW22 #USAgCenters #necasag #RoadwaySafety #TractorSafety #FarmSafety

[COMIC GRAPHIC]

English: <https://bit.ly/3vOl6XW>

Spanish: <https://bit.ly/3PgI9Y>

5. More than half of All-Terrain Vehicles (ATVs) deaths occur on public roadways. Despite their name, ATVs are not safe on all terrains. Only cross paved roads when permitted by law and use extreme caution when crossing is necessary.

Mas de mitad de las muertes por ATV (vehículos todo terreno) ocurren en calles públicos. A pesar de su nombre ATV (vehículos todo terreno) no son seguros en todos los terrenos. Solo cruce en caminos pavimentado cuando lo permita la ley y tenga extrema precaución cuando sea necesario a cruzar.

#NFSHW22 #USAgCenters #necasag #ATVSafety

[VIDEO] <https://bit.ly/3JFjJ3E>

6. Rural roads pose special dangers with curves, two-way traffic, slow-moving farm vehicles, wildlife, narrow lanes, and more. Everyone has a part when driving in rural areas. Both farmers and community members need to stay informed, aware, and patient when sharing the roads.

#NFSHW22 #USAgCenters #necasag #TractorSafety

Tuesday (9/20)
Overall Farmer Health

1. Did you know that certain social and economic indicators make up 40% of the health factors that determine life expectancy and quality of life? Health disparities occur as a result of unequal systems, practices, or conditions. Health inequities are preventable - read this infographic from @sccAgSafety to learn about how we can strive for health equity.

[National Farm Safety and Health Week: Protecting Agriculture's Future](#)

Wednesday (9/21)

Safety & Health for Youth in Agriculture

1. It's never too early to start a conversation with kids about farm safety. The comic-style book, "Staying safe on the farm with Jaxon" tells the story of the Boomsma family who lost their 7-year-old Jaxon in a tractor-related incident at a relative's farm in April 2017. The Boomsma family "Keeps Jaxon's "smile alive" and tells their story to prevent future farm tragedies from happening.
