

Safely Share Rural Roadways- Stay Alert, Aware, and Alive

Rural Roadway Safety Tips:

- Wednesday, September 23 is Children and Youth Safety Day. Be a safe driving role model for your kids. Always wear your seatbelt and insist passengers do too.
- Follow the speed limit. Speeding drivers may not be able to avoid a collision with a Slow Moving Vehicle.
- Be patient when following farm machinery. Only pass in designated passing zones when the roadway is clear of oncoming traffic.
- Never ride or allow passengers in the cargo area of a pickup.
- Watch for unlicensed youth driving farm equipment.
- Be cautious of loose gravel, soft shoulders, tight curves, and blind intersections caused by mature crops.

National Farm Safety & Health Week
September 20-26, 2009
