

2026 National Farm Safety and Health Week

NIOSH Ag Centers Promotional Toolkit

September 21-25, 2026

- **Monday (9/21):** Equipment and Rural Roadway Safety
- **Tuesday (9/22):** Health and Wellness
- **Wednesday (9/23):** Generations of Farming
- **Thursday (9/24):** Confined Spaces
- **Friday (9/25):** Cancer Prevention

The **NIOSH Centers for Agricultural Safety and Health** collaborate to promote 2026 National Farm Safety and Health Week, especially NIOSH Ag Center safety resources that fit with the daily themes of this year's campaign. The overall goals are:

1. Create cohesive, clear, and understandable messages promoting a wide range of farm safety and health topics.
2. Increase engagement on farm safety and health social media platforms.
3. Share farm safety and health resources.

National

Farm Safety & Health Week

**September 21-25
2026 #NFSHW26**

Join us as we raise awareness, share learning tools, and explore ways to improve safety and health in agriculture.

LEARN MORE

Follow this social media schedule and share your favorite safety tips

Equipment & Rural
Roadway Safety
Monday 9/21

**Kickoff the week
with roadway safety**

Health & Wellness
Tuesday 9/22

**Learn tips for overall
health on the farm**

Generations of Farming
Wednesday, 9/23

**Ensure healthy farming
for all generations**

Confined Spaces
Thursday, 9/24

**Learn about the hazards
& prevent injuries**

Cancer Prevention
Friday, 9/25

**Learn about health,
learn about cancer
prevention**

National Farm Safety and Health Week is led by the National Education Center for Agricultural Safety (NECAS), the agricultural partner of the National Safety Council. Support is provided by the NIOSH Agricultural Safety and Health Centers (Ag Centers). For more information, visit: www.necasag.org/nationalfarmsafetyandhealthweek/

Safety today, success tomorrow.

Safety and health resources organized by topic

NFSHW Logo, Graphics, and Imagery

Download the NFSHW 2026 campaign graphics using the links below:

- [NFSHW logo](#)
- **Social media covers for Facebook** ([Facebook cover](#)) and **Twitter/X** ([X cover](#))
- **Social media graphics** ([Teasers](#), [Daily themes](#))
- [NFSHW flyer](#) in English and Spanish

For additional imagery, see [CS-CASH Flickr](#), [PNASH Flickr](#), [USDA Flickr](#) (attribution required and editing prohibited), or free stock imagery websites like [Unsplash](#) or [Pixabay](#). Be sure to cite the photographer or source.

Customize Graphics in Canva

Personalize the campaign graphics by adding your organization's logo, website, or local resources. Just open the Canva template, customize the graphics and download as a PNG or JPG file.

Evaluation: Help measure collective impact

Help us understand the reach and impact of National Farm Safety and Health Week. You can support our evaluation by:

1. **Using campaign hashtags.** Use the campaign hashtags when sharing posts and resources.
2. **Sharing Bitly links.** Use the Bitly links provided when sharing resources to

2026 National Farm Safety and Health Week
#USAgCenters | #NFSHW26 | #NECASAG

- help us understand which topics generate the most interest.
3. **Share the toolkit and webpage.** Sharing the toolkit and webpage to help us measure visits and downloads.
 4. **Post and share resources in Spanish.** Using the Spanish-language materials when appropriate so we can better understand their reach and engagement.

These measures will help us learn:

- Which safety topics generate the greatest interest.
- How resources are shared and accessed.
- The reach of English and Spanish-language materials.
- Opportunities to improve future campaigns.

For questions and feedback, contact: pnash@uw.edu.

Thursday (9/24) ⚠️ Confined Spaces

When posting, don't forget to tag the source! [Click for a full list of @handles.](#)

🧹 Cleaning grain bins is an important part of maintaining grain quality, but it can also expose workers to serious hazards.

Before entering a grain bin, take time to review safety procedures, inspect equipment, and plan for emergencies. A checklist can help ensure important safety steps are not overlooked.

⬇️ Download the checklist: <https://bit.ly/4w1CPn>

#NFSHW26
#FarmSafety
#USAgCenters

🚧📖 When an emergency happens on a farm, every minute matters.

Farm MAPPER is a free tool that helps farmers and first responders identify hazards, access points, and important resources before an emergency occurs, improving response times and enhancing safety.

🔗 Explore Farm MAPPER: <https://bit.ly/4gGbVKE>

#NFSHW26
#FarmSafety
#USAgCenters

⚠️ Grain bins, silos, and other agricultural confined spaces can contain hazards that are not always visible.

Understanding the risks can help prevent serious injuries and fatalities.

⬇️ Download the poster for your workplace: <https://bit.ly/4fJl7k>

#NFSHW26
#FarmSafety
#USAgCenters

🐮⚠️ Confined spaces can pose serious hazards in cattle feedyard operations.

The Feedyard 15 is a free safety training curriculum designed for cattle feedyard workers and supervisors.

Learn how to recognize confined space hazards and other common workplace risks to help prevent injuries.

📖 Explore the training: <https://bit.ly/4f8YeYQ>

AgriSafe Webinars

Be sure to join and promote free AgriSafe webinars!

Every September, AgriSafe joins with partners across the US to raise awareness about the safety and health of people working in agriculture. Offered twice (or more) daily throughout NFSHW.

Registration and information:
<https://learning.agrisafe.org>

Promotional Guidance

Use this toolkit to promote **National Farm Safety and Health Week (NFSHW)** across your organization's communication channels. Customize the sample messages and graphics for your audience, and consider sharing the campaign with local, state, and national media. To find media outlets in your area:

[Print](#) | [Radio](#) | [Television](#)

Communication Tips

- Follow the **Media Guidelines for Agricultural Safety**:
[Downloadable PDF \(English\)](#) | [Spanish](#) | [French](#)
- **When crafting messages:** Emphasize that farm incidents are more common than expected while also **preventable and predictable**.
- Use the message as a "teachable moment." Focus on the full impact of injuries and death, not just the grief caused by the incident. Include safety resources. Follow all safety protocols, including those for youth.
- **When including visuals:** Ensure photos or graphics depict appropriate farm safety protocols, even in the image's background.

Media engagement tips

- Remember that news moves fast - you will compete for limited space or airtime.
- Target **media outlets interested in rural/agricultural issues** - know who you will connect with at the media outlet. Get a name!

- Get a **content expert** to speak on agricultural health and safety or one of the daily themes.
- Prepare to **suggest several story ideas** that will garner broad interest. The more sensational about the story, the more likely it is to be covered by media outlets. Focus on personal stories. Not all pitches will be successful, but do not let that discourage you.
- Consider **writing a letter to the editor** for a local newspaper or trade publication.
- Consider **reaching out to trade publications** for agricultural associations.
- Consider **reaching out directly to community partners to help amplify reach**.
- When participating in interviews:
 - Keep your answers **short and to the point**.
 - **Prepare** your answers ahead of time.
 - **Provide instructions** on accessing resources, like the Ag Centers' YouTube channel.
 - **Mention the name** of the campaign, the organizers, and the Ag Centers.

Social media tips

- If using a resource from another organization, [tag the organization](#) in the post, if possible.
- Reshare other US Ag Center social posts and resources throughout the week.
- Posts with images tend to do best.
- Consider translating posts into languages common to your region, including Spanish.
- Use images that include a range of diverse identities.
- Make sure your social media posts are **accessible for individuals with disabilities**:
 - [Accessible Social Media](#)
 - [Creating Accessible Social Media Content](#)
- Tailor post text to specific platforms
 - **Tweets** tend to be short (≤280 characters) and do best when framed as part of a larger regional/national dialogue. They don't always include an image or link and often have 1-3 hashtags.

- **Facebook** posts can be longer, should include only one general hashtag at most, and tend to do best with graphics that depict a story, such as infographics or pictures of individuals.
- **Instagram** posts are centered around an image, do not include external links, and can have up to 5 hashtags.
- **LinkedIn** posts are professional in nature, often sharing an organization's opportunities, events, or resources.
- You may also wish to play around with Facebook and Instagram stories. Kudos to anyone who creates a TikTok video. :)
- [Find more information on ideal social media post lengths for platforms here.](#)
- Use the hashtags #NFSHW26, #USAgCenters, #NECASAG, where appropriate throughout the campaign.
- Consider using other hashtags relevant to the topic of the post and/or your audience(s), for example:
 - #FarmSafety
 - #CultivateSafety
 - #AgTeach
 - #TeachAg
 - #TractorSafety
 - #RoadwaySafety
 - #FarmerHealth
 - #WellnessOnTheFarm
 - #SafeFarmKids
 - #GenerationalSafety
 - #AgingOnTheFarm
 - #ConfinedSpaces
 - #GrainBin
 - #GrainSafety
 - #BreatheBetter
 - #RespiratorySafety
 - #HomeSafeHome
 - #FarmerMentalHealth
 - #SeguridadAgricola
